

qualification criteria may be structured such that vessels fishing for other species and having incidental catches of monkfish would be able to continue to do so without qualifying for a limited access permit.

This notice hereby establishes February 27, 1995 for potential use in determining historical or traditional participation in a monkfish fishery. This action does not commit the Councils to develop any particular management regime or to use any specific criteria for determining entry to the fishery. The Councils may choose a different control date, or may choose a management program that does not make use of such a date. The Councils may choose also to take no further action to control entry or access to the fishery. Any action by the Councils will be taken pursuant to the requirement for FMP development established under the Magnuson Act.

Federal Energy Regulatory Commission

[Docket No. CP93-728-001, et al.]

Northwest Pipeline Corporation, et al.; Natural Gas Certificate Filings

February 17, 1995.

Take notice that the following filings have been made with the Commission:

1. Northwest Pipeline Corporation

[Docket No. CP93-728-001]

Take notice that on February 9, 1995, Northwest Pipeline Corporation (Applicant), P.O. Box 58900, Salt Lake City, Utah 84108-0900, filed in Docket No. CP93-728-001 a request pursuant to § 157.205 and 157.212 of the Commission's Regulations under the Natural Gas Act for approval to change the design of authorized facilities, located at the new Maple Heights Meter Station in King County, Washington,¹ to reflect the elimination of one of the originally authorized meters from the design of the facilities actually installed, under blanket certificate issued in Docket No. CP82-433-000,² all as more fully set forth in the request for authorization on file with the Commission and open for public inspection.

Applicant states that it was authorized to construct and operate the Maple Heights Meter Station consisting of two 3-inch taps, one 2-inch rotary meter, one 4-inch turbine meter, two 1-inch Mooney regulators and appurtenances, with a maximum design delivery capacity of approximately 5,250 Dth per day at 200 psig to provide service to Washington Natural Gas Company (Washington Natural). Applicant states that prior to construction Washington Natural determined that a capacity of 750 Dth per day would be sufficient to meet its requirements at this delivery point and requested that the authorized meter station be downsized. Accordingly, Applicant modified the Maple Heights Meter Station design by eliminating the authorized 4-inch turbine meter thus reducing the design capacity to
